

3rd Annual

ME-ESG REPORTING & DATA SUMMIT

Hyatt Regency Dubai Creek Heights, Dubai, UAE

27 November, 2025

OUR PARTNERS

GOLD TECHNOLOGY PARTNER

Tekmon makes ESG reporting simple, reliable, and compliance-ready. Our award-winning platform helps organizations collect and consolidate data from systems, spreadsheets, and teams, then report against global standards such as GRI and SASB. With AI to reduce manual collection, integrations for seamless data flow, and no-code tools to build custom data collection workflows, Tekmon turns reporting into a smarter, more efficient process. The result: companies of all sizes can replace spreadsheets with real-time insights and improve their sustainability performance.

GOLD ESG PARTNER

Presgo (formerly Convene ESG) is an AI-native, modular ESG reporting platform developed by Azeus Systems. Launched in September 2025, it rebrands the trusted Convene ESG software to offer smarter, faster, and more impactful sustainability reporting. Presgo supports over 30 global and national ESG frameworks, automates bulk data processing, validates and benchmarks data with AI, and includes a carbon calculator. Its modular architecture lets organizations scale ESG capabilities by adding components as needed. Serving clients in more than 20 countries, Presgo aims to simplify ESG workflows and drive measurable, long-term impact.

GOLD DIGITAL PARTNER

Masader is a leading multi-disciplinary sustainability consultancy with offices in Cairo and Dubai, offering tailored ESG task forces and end-to-end sustainability infrastructure. Our expertise spans ESG reporting, climate change, environmental and social management, green building, sustainable products, and energy management. In 2025, we launched a trilingual suite of ESG, climate, and environmental risk data-management and reporting software, featuring gamified, cloud-based and on-premises tools with built-in AI consultancy developed from our deep regional experience. Masader's accreditations reinforce its position as a regional leader, including GRI Certified Training, Software and Tools Partner status; a license for IFRS® Sustainability Disclosure Standards; AA1000AS assurance provider licensing; and SASB framework integration accreditation aligned with TCFD. We have also led major national initiatives such as Egypt's First Biennial Transparency Report GHG inventory (2024) and the COP27 decarbonization plan and sustainability report (2022). With a world-class team of certified sustainability, climate, finance, and green-building professionals, Masader helps organizations meet global standards while addressing local realities across Egypt, the Middle East, and Africa.

OUR PARTNERS

GOLD PARTNER

Kaplan Middle East and North Africa (MENA) is a part of Kaplan, Inc., a global educational services company that helps individuals and institutions advance their goals in an ever-changing world. Our broad portfolio of solutions helps students and professionals further their education and careers, universities and educational institutions attract and support students, and businesses maximize employee recruitment, retainment, and development.

Stanley Kaplan founded our company in 1938 with a mission to expand educational opportunities for students of all backgrounds. Today, our thousands of employees working in 27 countries continue Stanley's mission as they serve about 1.2 million students and professionals, 15,000 corporate clients, and 3,300 schools, school districts, colleges, and universities worldwide. For more than 20 years, Kaplan has worked closely with businesses, governments, and other partners throughout the Middle East to deliver a wide range of professional training, language skills, and university pathway programs, while actively contributing to Government initiatives. Kaplan MENA has offices in Riyadh, Dubai, Abu Dhabi, and Cairo.

GOLD PARTNER

SDH is a professional services firm that partners with financial institutions to address complex challenges in banking, regulation, risk management, and sustainability. We help clients integrate sustainability into strategy, governance, risk, and reporting, ensuring ESG is embedded across business and operations. Combining expertise in risk modelling, supervisory remediation, and sustainability reporting, we deliver pragmatic, data-driven solutions that strengthen compliance, enhance resilience, and support long-term value creation.

GOLD PARTNER

Novisto is the sustainability data management and reporting software of choice for global enterprises. By simplifying the process of collecting, auditing, and reporting ESG data, Novisto gives sustainability and finance teams the confidence that their disclosures are accurate and reliable. The company has been recognized by prominent industry analysts Gartner and Verdantix and is a Deloitte 2024 Technology Fast 50™ program award recipient. Founded in Montréal in 2019, Novisto is backed by Inovia, White Star Capital, Diagram Ventures, Portage, and SCOR Ventures.

OUR PARTNERS

GOLD PARTNER

Sutherland delivers market-leading technologies and business process excellence through the power of Digital Engineering — driving innovation, scalability, and transformation at every level. With over 363 unique inventions (including 250 AI-based solutions) and multiple patent grants across critical technologies, Sutherland continues to redefine what's possible in the digital era. By combining advanced platforms with agile execution, they help organizations transform operations, reinvent experiences, and achieve measurable digital outcomes — all through a seamless as-a-service model.

SILVER PARTNER

Since 2011, Haggar Group has undertaken a strategy of regional expansion and diversification, staying true to its values while evolving to meet the needs of a changing Africa. The Dubai-based headquarters was established in 2013 to support investments across Africa, backed by the Haggar family, whose deep roots on the continent span more than 120 years. Their goal is to be Africa's revolutionary Agro-allied group that creates value and sustainability across the region, as they believe this will provide architecture and foundation for sustainable development across the continent.

SUPPORTING PARTNER

7 Centre Middle East is redefining sustainability management through applied artificial intelligence. Our flagship innovation, the Simplii Platform, combines domain-specific AI with intuitive data and risk-management tools to help organizations move from complexity to clarity. Simplii's intelligent architecture connects enterprises, consultants, and supply-chain participants in one collaborative ecosystem - enabling consistent data collection, real-time insights, and automated reporting. The platform's AI guidance helps users interpret sustainability requirements, identify priorities, and turn performance data into meaningful progress. By embedding AI into everyday decision-making, 7 Centre helps organizations build transparency, strengthen resilience, and accelerate transformation across their operations and value chains - supporting the UAE's vision for sustainable, innovation-led growth.

OUR PARTNERS

SUPPORTING PARTNER

For over 30 years, the company has supported clients across the entire project life cycle, growing from a UK-based consultancy to a global firm of more than 4,500 experts operating across six regions. With a One Team culture that fosters collaboration, entrepreneurship, and meaningful impact, SLR brings together advisors and technicians to solve some of the world's most complex sustainability challenges. Supported by its principal investor, Ares Management, the company continues to expand while maintaining a balanced and people-centered approach. Designed to offer an alternative to rigid corporate structures, SLR provides a flat, collaborative environment with strong opportunities for cross-functional work, growth, and purpose-driven careers.

SUPPORTING PARTNER

Adil Zone Corporate Services LLC is a global leader in company formation and corporate consulting, specializing in providing dedicated local partnership platforms for foreign businesses. The firm is associated with Anjarwalla Collins & Haidermota (AC&H) Legal Consultants, which serves as the Regional Office for the Africa Legal Network and also acts as Adil Zone's legal advisor. This affiliation enhances Adil Zone's credibility and capability in facilitating complex corporate structures while ensuring strong legal support throughout and beyond the incorporation process.

AI ESG PARTNER

Across the region, business leaders are redefining sustainability performance, shifting from compliance checklists to intelligent, impact-driven transformation. Ecodrisil empowers CXOs and sustainability leaders to build trust through transparent, data-driven ESG disclosures, accelerate compliance with evolving global and regional mandates, and translate sustainability goals into measurable business outcomes. With ESGAI®—its AI-powered co-pilot—Ecodrisil simplifies ESG and emissions reporting while driving meaningful change. Together, these capabilities enable organizations to connect, collaborate, and lead the region's sustainable transformation.

OUR PARTNERS

STARTUP PARTNER

Atoninos Consulting, redefines what's possible in business transformation. With a rich portfolio of cutting-edge solutions like SAP, RPA, AtoCash, H2O, AtoTag, and their flagship innovation, e3, they empower organizations to thrive in the digital era with purpose and precision. e3 is their breakthrough AI-powered Sustainability Measurement Tool, designed to help businesses measure, manage, and elevate their environmental performance. From carbon footprint tracking to resource optimization, e3 enables companies to lead responsibly in a world that demands transparency and accountability.

KNOWLEDGE PARTNER

Symbiosis International University Dubai is the first international branch of Symbiosis International University India. The campus brings a strong academic legacy to the UAE with programs built around practical learning, research, and global exposure. It's developing talent that's ready for tomorrow's challenges.

COMMUNITY PARTNER

Join us for FREE at Step-esg.com

STEP is more than a platform, it's a community. Built for doers, STEP is where sustainability professionals and teams learn, share, and co-create practical ESG solutions. Guided by collaboration, curiosity, and a belief that small steps lead to big shifts, the community empowers members to walk the talk on sustainability.

SUSTAINABILITY PARTNER

Goumbook is a leading social enterprise advancing sustainability and climate action in the UAE and wider region since 2009. Through awareness, education, and community engagement, it delivers impactful programmes such as Give a Ghaf, Trees Matter (in partnership with MOCCA), Drop It – Rethink Plastic, Eat It or Save It (with the UAE Food Bank), and Take a Breath, an indoor air-quality initiative endorsed by MOCCA. Goumbook conceptualised and managed Dubai Can for H.H. Sheikh Hamdan bin Mohammed bin Rashid Al Maktoum, and more recently launched the MENA Regenerative Agriculture Venture Programme and the MENA Oceans Summit and Network to drive regional collaboration on climate, ecosystems, and food systems. Its mission is to build a regional community united in sustainability, bringing together governments, businesses, scientists, youth, and consumers, and it also hosts the Forward Talks podcast featuring leaders driving positive environmental impact.
